## Tylenol Policy

Dear Parents:

Occasionally a child will develop a high “fever at the spur of the moment.” After taking the child's temperature, we will call the parent or guardian if it is 100 degrees or above. We will then ask you if we can administer Tylenol and what dosage we should give. You will then be required to pick up your child. The teacher will administer the medication and write it in the medication log. When you arrive, you will be asked to sign the medication log.

In the event we are unable to reach you and the temperature is 100 or above we will administer Tylenol, see bottom of form. If after Tylenol is given and the temperature reached 103 degrees, a Schoolhouse Learning Center employee will take your child to the nearest hospital. It is because we are aware of the effects a high temperature can have on a child that we have decided to follow this procedure.

Schoolhouse Learning Center does supply Tylenol. Please be sure to give your child's teacher a bottle we may keep at school. We cannot accept medication that is not in, the original container. Please label the bottle with your child's name.

Please inform us at drop off any medication you have administered earlier, the time and the amount of dosage given. If you have any questions or concerns please do not hesitate to stop in the office or call.

Thank you,  
Schoolhouse Learning Center
